

THEO'S STORY:

In July 2015, Theo was diagnosed with stage 4 high risk Neuroblastoma which has now spread to his bones, skull, spine, hips and legs.

Theo is currently undergoing hospital treatment and we need the public to help us raise funds for DFMO, a potentially lifesaving treatment which aims to prevent relapsed Neuroblastoma and is only available in America.

NEUROBLASTOMA:

Neuroblastoma is the most common cancer diagnosed in children under 5 years old. It is extremely aggressive with survival rates between 35-50%. In most cases it is only diagnosed when it has already progressed to a late 'high risk' stage.

£250K TARGET
TO GIVE THEO
ACCESS TO
TREATMENT THAT
COULD INCREASE
HIS CHANCES OF
SURVIVAL!
PLEASE DONATE!

WEC Group is supporting Theo's Warriors Charity as our chosen Charity of the Year 2016. We will be raising funds for Theo's Warriors at this year's Golf Day on 8th July.

We also encourage staff to organise and take part in a range of sporting and fundraising activities to help us raise funds for Theo's Warriors.
