Accessories

We possess over 30 years experience in the design, production and manufacture of CCTV mounting structures. Coupled with a highly skilled engineering background and utilising the very latest in fabrication and assembly technology, WEC's camera mounting division is the number one, unrivalled leader in the world-wide CCTV industry today.

The camera mounting division operates from a purpose-built manufacturing site covering 126,000 square feet, enabling us to keep high stock levels and provide short lead times on bespoke products.

This brochure includes our most popular ranges, all **in stock today** for your convenience. For further details or to request a full product brochure, please ring: 01254 700200 or email: cctv@wecl.co.uk.

WEC Camera Mounting Solutions
is a trading division of WEC Group Ltd.

follow us on:

ST Range

The original fixed tower designed and built by WEC continues to be a popular item. This highly cost-effective modular tower is designed to give excellent stability and wind resistance characteristics. Predominantly installed within secure compound environments, the ST tower displays a business-like appearance many clients prefer.

WD Range

The original fixed tower designed and built by WEC, naturally evolved into the tilt-over tower range. This family of towers offers all the benefits of the ST range, with the added bonus of tiltability for safe ground level maintenance. This highly cost-effective modular tower is designed to give excellent stability and wind resistance characteristics. Predominantly installed within already secure compound environments, the WD tower displays a business-like appearance many clients prefer, with the added feature of safe ground level maintenance.

FMT Range

The highly popular FMT range offers an extremely cost-effective, unobtrusive and practical solution for many camera mounting scenarios. This versatile tubular CCTV column is supplied with a lockable access door and backboard for terminations. Suitable for installation in all areas, this range remains the specifiers preferred choice for the cost-conscious.

TPT Range

The TPT range provides the ultimate in attractive, low maintenance, engineer friendly camera mounting solutions. This CCTV column offers ease of installation, with the major benefit of safe ground level servicing. The TPT range is a robust version of the tilting column, featuring a square section lower post, with a tubular upper section. Suitable for mounting in low risk public areas, the TPT range offers many practical engineering benefits, along with being unobtrusive and aesthetically pleasing.

FMS Range

The ever popular FMS square section range offers an extremely cost-effective, unobtrusive practical solution to many camera mounting scenarios. The versatile columns come complete with lockable access doors and backboard for terminations. Suitable for installation in all areas, this range remains a favourite with specifiers and the cost-conscious.

TPS Range

The TPS range provides undoubtedly one of the best low cost, low maintenance, engineer friendly camera mounting solutions. This CCTV column offers ease of installation, with the major benefit of safe ground level servicing. The TPS range is a light/medium duty version of a tilting column, manufactured throughout from square section steel. Suitable for mounting in low risk public areas, the TPS range offers many practical engineering benefits, along with being unobtrusive and aesthetically pleasing.

FMV Range

LPS Range

The original and highly popular FMT tubular section range has, over a period of time, evolved into more decorative and aesthetically pleasing versions. The FMV range is the modern day CCTV version of the Victorian gas light column and amongst its features are ornamental cast iron decorations to the base, shoulder and shaft. This 'retro' column is now the consultants and specifiers first choice for heritage sensitive applications. The sister column to the FMV is the LPS. This version of the FMT emulates the traditional street lighting column, whereby the column has a larger circular base section, tapering into the standard shaft. The base section, before tapering into the CCTV shaft, is larger than the normal streetlight and has the ability to house control equipment.

Fixed and Tilt-Over Cabinet Base TC, CB, TCTO, CBTO Range

TC & CB Range

The TC and CB range of CCTV columns remain the specifiers number one choice for cabinet based columns, for use within city centre and urban schemes. The 400 square cabinet remains the mainstay of this range of columns, with cabinet options of 325 and 500 square readily available for terminating all communication and electrical needs. The proven design, along with many versatile features, keep it at the forefront of CCTV street furniture and it is still the industry standard.

TCTO & CBTO Range

The TC and CB range naturally evolved into the TCTO and CBTO range of tilt-over columns, for use within city centre and urban schemes. The added bonus of maintenance at ground level make this a popular and safe first choice where access for maintenance is of concern. The 400 square cabinet remains the mainstay of this range, with the 325 cabinet option readily available. The sturdy, proven design, along with many versatile features, keep it at the forefront of CCTV urban furniture with the added bonus of tiltability.

WEC offers a wide range of road side cabinets, from standard off the shelf products to those tailor made to specific customer requirements.

The standard road side cabinets are available in a variety of sizes and manufactured from materials such as stainless steel, aluminium or with a galvanised finish. These standard cabinets include an extensive range of hardware and can even be fully wired and terminated to suit the customer's requirements. Furthermore, WEC's road side cabinets are available in a comprehensive selection of colours and on a short lead time basis.

WEC is able to manufacture and supply road side cabinets to customer drawings and offer a design service to produce cabinets tailored to customer requirements.
