

**Job Title:** Project Engineer  
**Reports to:** Operations Manager  
**Department:** Engineering  
**Hours of work:** Monday – Thursday 8am-5pm & Friday 8am-2pm.

Have you ever thought about working in the Nuclear Industry?

Here at the WEC Group, we are striving to establish ourselves as one of the leading Nuclear Fabrication suppliers in the UK.

With a £10 million investment in a brand-new 60,000 sq. ft. Nuclear Fabrication & Machining shop, we are enhancing our capabilities to offer the best services to our clients.

We are looking for experienced Project Engineers with a background in welding and fabrication, and managing fabrication projects from start to finish.

Our Project Engineers play a vital role in delivering every project that comes through our factory. With a solid team of engineers already in-house, you will join a high-performing workforce that will not only support you but also push your boundaries to develop your knowledge and understanding of our industries.

If you have a passion for welding and fabrication and want to work on some of the toughest yet most rewarding projects available, reach out now.

Please see below for the required knowledge and skills:

### **Knowledge, Skills, Experience**

---

Essential:

- Proven engineering and fabrication knowledge
- Ability to read and work from detailed engineering drawings
