

QUALITY ENGINEER

VACANCY: Quality Engineer

LOCATION: Rotherham, S60 (Close to Meadowhall, Sheffield)

ABOUT US:

MTL Advanced is a Yorkshire-based steel engineering and manufacturing company operating from a 300,000 sq. ft. facility in Rotherham.

We have invested in an extensive range of technology and equipment and provide services to a range of OEM's from leading industries including defence, security, construction, quarrying, recycling and rail.

Our inhouse capabilities include, large format Laser Cutting and Press Braking, CNC Precision Machining, Fabrication & Welding, Shot Blasting, Painting and final Assembly.

Reporting to the Quality, Health and Safety Manager, we are looking for a resilient Quality Engineer to join this vital team. You will lead quality-related improvements through quality improvement initiatives and the non-conformance system. Your responsibilities will include identifying root causes of quality issues, working collaboratively with the production team to implement corrective actions, and establishing an effective audit program within the manufacturing facility.

You must be an excellent communicator and presenter, capable of liaising with and influencing key personnel and relevant department heads.

We are looking for future colleagues who are ambitious and who thrive on accomplishments created by strong individuals within a team environment. Our offices and workstations are open plan, our approach is collaborative.

ABOUT THE ROLE:

- Review of ISIR and FAIR reports prior to submission
- First point of contact for internal quality concerns
- Investigate Non-conformances, both internal and external and implement CAPA measures
- Compilation and submission of PPAP documents as requested by customers
- Provide inspection support as required (Absence/ Workload)
- Review and approval of concessions prior to submission to customers
- Conduct daily QA audits
- Conduct and lead 8D investigation reports issued by QHSE Manager
- Development of process controls for specific processes
- Generate Supplier Corrective Action Reports (SCAR's) follow up to ensure effective CAPA are implemented

ABOUT YOU:

- Recent / relevant experience in a similar Quality role within metal fabrication / engineering
- Demonstrable understanding of quality management principles, methodologies and core tools
- Precision in reading and interpreting engineering drawings and technical documents

QUALITY ENGINEER

- Highly motivated, proactive, team-orientated and outcomes driven
- A flexible approach to be able to adapt to changing and challenging requirements
- Strong problem-solving skills and the ability to generate innovative concepts and ideas
- Excellent interpersonal and communication skills with the ability to communicate at all levels
- Ability to remain focused on Quality and consistently reiterate its importance to others

WHAT WE OFFER:

- A culture of shared values, goals, attitudes and business growth
- Competitive salary
- 33 days holiday (including statutory Public Holidays)
- Secure onsite free parking
- Life Assurance plan (Death in Service)
- Monthly Prize Draw
- Company pension plan
- Reduce gym membership
- Healthcare Scheme
- Colleague Referral Programme: we pay you for successfully referring people to join our team
- Companywide initiatives to share in our future success
- A blend of training to support your career development

WORKING HOURS:

Monday - Friday

- Monday – Thursday 0800-1700
- Friday 0800-1600 (Finish at 1330 every other Friday)

We know that our people are the most important asset to MTL Advanced, and we are looking for skilled, passionate and driven professionals to work with our inspirational leaders, promote our culture and enable change. With expertise across the manufacturing industry and a leading UK facility, innovation and investment make MTL a great choice for your career.
